

## HEALTH, SAFETY & ENVIRONMENT (HSE) POLICY

5<sup>th</sup> October 2022

The Owner and Management of KRISHGEN BIOSYSTEMS (the "Company") has the power to design, assess and continuously revise the Governance and Sustainability System, and specifically to approve and update the corporate policies, which contain the guidelines governing the conduct of the Company.

In the exercise of these responsibilities and aware that the sustainable creation of value is one of the pillars of the Purpose and Values of KRISHGEN, the Owner and Management hereby approves this Health, Safety & Environment Policy (the "Policy").

### 1. Purpose

We, at KRISHGEN, recognize that high standards of health, safety and environmental protection are integral for the growth of the organization and its people. We are committed to providing a safe and healthy workplace for all employees, and preventing any untoward incidents, accidents, injury and/or ill-health of any employees, contractors, and other relevant stakeholders. We also aim to take adequate measures to protect the environment and prevent environmental pollution.

### 2. Scope of Application

This Policy applies to the Company within the limits established by law of the jurisdiction of Mumbai, India.

### 3. Main Principles of Conduct

The company's senior management recognizes the importance of HSE to achieve and sustain excellence in our businesses; therefore, with the cooperation of all employees, we endeavour to continually improve our HSE Management System by committing to:

- Incorporating HSE considerations in the business decisions and operations of the organization
- Adopting preventive measures in our business processes and practices
- Promoting awareness among employees, contractors, business partners and other stakeholders to develop a positive HSE culture within the organization.
- Striving to achieve zero harm and zero lost time injuries by establishing accountability along with an HSE mindset at all levels of the organization.
- Providing information and imparting training (including emergency and crisis management) to employees, contractors, and other relevant stakeholders to ensure HSE requirements are met at job sites.
- Striving to reduce our environmental impact through optimization of waste generation, preservation of natural resources and encouraging conservation and recycling.
- Maintaining proper equipment, and office and job site conditions through optimum utilization of resources that minimize and/or eliminate occupational health, safety and environmental risks.
- Developing effective planning and monitoring systems to periodically review the organization's health and safety performance and identify potential errors, and to ensure that corrective actions are initiated to reduce their impact.

Communication, consultation, participation and collaboration among all employees and stakeholders will uphold the principles of this policy. Responsibility for compliance to this policy rests with all the employees of the Company. They shall support its implementation by using the safety equipment issued to them, familiarising themselves with the safety rules/procedures of the organization and enforcing appropriate corrective measures if violations are reported at job sites.
